SISTER OF KING GEORGE WITH PRINCESSES, SAVED FROM WRECKED STEAMER

Duchess of Fife, Her Daughters and Husband Taken from Liner Delhi.

OFF MOROCCAN COAST.

Royal Princess Wires "All Safe" to Queen Mother—Other Passengers Rescued.

TANGIER, Morocco, Dec. 13.—The steamship Delhi of the Peninsular and Oriental line, bound for Egypt and India with 100 cabin passengers, including the Duke and Duchess of Fife and their daughters, Princesses Alexandra and Maude, is on the rocks at Cape Spartel, on the Moroccan coast, at the southern side of the entrance to the Straits of Gibraltar. The Duchess of Fife is a sister of King George V.

The French cruiser Friand, which was despatched from here as soon as the news of the wreck was received, has taken off the women and children and landed them at Tangier. The rescue was effected with much peril to the sailors of the warship. The Princess Royal, her husband, the Duke of Fife, and her daughters were taken from the Delhi by men from the British cruiser Duke of Edinburgh and conveyed in a lifeboat to Cape Spartel, where they were landed. Then they made a journey of six miles overland to Tangier.

All the passengers were taken safely from the Delhi before night.

Nearly all the passengers of the Delhi are English, bound from London to Egypt for the winter. So far as is known, there are no Americans on board.

"ALL SAFE" ROYAL PRINCESS WIRES QUEEN MOTHER.

The Duchess of Fife and her daughters left here late to-day on a British warship for Gibraltar.

The Princess Royal sent a wireless message to Queen Alexandra saying "All are safe on board the Delhi." The message was sent through the wireless station at Cadix and the Princess added a request that it should be made public. The Governor of Gibraltar, Lieut.-Gen. Sir Archibald Hunter, is engaged in preparing rooms at Government House for the reception of the Princess Royal and her family on their arrival here.

The Friand was the first vessel to reach the wreck. After the transfer to the warship of the women and children the cable increased in force and terrific seas battered the stranded vessel.

The British cruiser Weymouth, carrying a detachment of artillery from the garrison, left Gibraltar for the scene of the wreck. The British steamship London and the cruiser Duke of Edinburgh, which were in the vicinity of Cape Spartel, were notified of the plight of the Delhi by wireless, and sped to her assistance. Several tugs left Gibraltar on the same errand.

Anticipating that much aid could be given from the sea, even though the weather should moderate, the British government arranged to land soldiers with rockets and life-saving apparatus on land at points near Cape Spartel where landing can be effected. These soldiers were directed to travel overland and get as near to the wreck as possible. The country is wild and hard to negotiate with life-saving machinery and appliances.

The Delhi went ashore in the darkness early this morning. The passengers were nearly all asleep and the first warning they had of disaster was when the vessel began to bump on the rocks. Great confusion ensued, but the officers of the ship succeeded in allaying the fears of the panic-stricken. Preparations were made at once for the launching of lifeboats, but the prospect for even these boats to ride the seas and make the shore was not promising.

Besides the Duke and Duchess of Fife and their daughters, there were other members of the British nobility aboard the Delhi. With their personal attendants they made up a considerable portion of the ship's passenger list. This particular British party and nearly all the tourists on the ship were bound for Egypt for the winter holidays.

The Delhi sailed from London last week. She is one of the finest ships in

SHEEPSHEAD BAY TRACK TO BE CUT INTO CITY LOTS

Real Estate Syndicate Said to Have Bought Property on \$3,000,000 Option.

MAY ALSO AID AVIATION.

One Plan of Promoters Is to Provide for Great Athletic Exhibitions.

Announcement was made to-day that E. C. M. Fitzgerald and David Michel, real estate operators of Brooklyn, representing a syndicate of local capitalists have taken an option at \$3,000,000 on the Sheepshead Bay racetrack, owned by the Coney Island Jockey Club.

This indicates that the racing powers are convinced that racing will not be revived. The big race track is quite a drain on the owners while it is lying idle.

One of the plans of the syndicate which has taken the option on the race track property is to cut it up into building tracts and found a high class residential colony. The ground is ideally located for such a purpose and it would mean more to the Sheepshead Bay section than a revival of racing. There are 430 acres in the tract.

An idea that is under consideration is the promotion of the largest athletic playground in the world. Believing that the automobile and the aviation industries never have had a location properly planned for the development of these trades, the promoters have thought out a new and highly original scheme. This is to build a two-mile automobile track upon which all the famous races of the Metropolitan circuit will be decided, and upon which an automobile salesman could demonstrate his cars.

Surrounding the track, it is planned to have salesrooms and a big exhibition hall. In the latter the automobile show could be held, as well as other exhibitions. Aviation also would be handled in the same manner, and if sufficient water is found in Gerritsen's Creek the motorboat world also would have a permanent and proper home for the demonstration of high speed and cruising craft.

LYNCH RE-ELECTED AS PRESIDENT OF NATIONAL LEAGUE

Brooklyn and Philadelphia Clubs Oppose Him, Voting for Brown of Louisville.

Thomas J. Lynch was re-elected President of the National League of Baseball Clubs this afternoon at the league meeting in the Hotel Waldorf-Astoria. He was elected by a vote of six to two.

Two clubs, the Brooklyn and Philadelphia, cast their votes for Robert Brown, a Louisville (Ky.) newspaper man.

Before the meeting of the National League this afternoon Charles Murphy of the Chicago club characterized as "insane" the resolution of the American League which, directed to the National League, notified it of the severing of all but "official relations," and that no more championship games would be played unless the American League has control of all sales of tickets for games on its grounds. Murphy added:

"The second paragraph of that American League resolution is simply issued to cover Johnson up. The reference to the effect that the American League will not be responsible for the business department when games are played on the park of the contesting club is a joke. There is nothing more to be said on the subject," continued Murphy, at least not from me, as it is not directed to me, and I suppose the League meeting will dispose of it properly."

Some one suggested to Garry Herrmann, chairman of the National Commission, that perhaps President Johnson of the American League was getting back at Murphy because the latter had issued a sarcastic statement earlier in the week, declaring that he would nominate Ban Johnson as president of both of the big leagues.

"Well, if Murphy has got in a hole with his statement, let him get out of it," laughingly replied Herrmann.

FRENCH MILITARY AVIATOR CRUSHED TO DEATH IN FALL.

MELUN, France, Dec. 12.—Lieut. Charles Lanthoume, the well known military aviator, was killed by a fall from his aeroplane as he arrived at the military aviation camp here to-day from Etampes.

Lieut. Lanthoume had wired his sisters at Etampes that he would fly over from Melun and take dinner with them. When about in sight of Etampes, and at a height of 1,200 feet, his monoplane fell and he over several times in the descent. The lieutenant's body was unrecognizable when found.

EIGHT LABOR MEN WILL BE INDICTED AS BOMB PLOTTERS

Federal Grand Jury Will Get Proof of Dynamiters' Inner Circle.

WOMEN WILL TESTIFY.

New York, Brooklyn and Hoboken Ask Evidence to Use in Local Prosecutions.

INDIANAPOLIS, Dec. 13.—The Federal grand jury for men of the "inner circle" who are said to have inspired the McNamara and Ortle McNamara in their dynamiting exploits is declared to-day to lead to eight cities in which, live important labor leaders who are alleged to be advocates of the "direct action" which led to wholesale explosions.

The Federal Grand Jury, which meets to-morrow to continue its investigation of the ramifications of the "inner circle," will have presented to it, it is said, proof that there really were men "higher up" in labor circles who advocated the use of explosives in the war against capital.

Indictments against these eight men are confidently expected by the Federal authorities in charge of the probe. Their names are being mentioned here freely to-day, and it is admitted that each one is under surveillance. It is declared on excellent authority that the Federal authorities have in their possession documents pointing so strongly to the guilt of these men that little doubt is expressed of their speedy indictment.

Among the interesting papers held by the Government is said to be an envelope bearing the inscription:

"Compliments of the ———"

POINT TRAIL TO THE MEN HIGHER UP.

The significance of these words, it is said, is that this envelope contained \$15 and was handed to Ortle McNamara in Detroit, Mich., in 1907. The money was payment for the first dynamiting "job" he did there. The two hidden words, it is said, point the trail directly to the men "higher up" who are said to have inspired the crime.

The belief is growing here that although John J. McNamara, secretary of the Iron workers, was one of the principals, he was supported in his plans by men whose names, it is said, will be presented before the Grand Jury for indictment.

Thirteen cities have semi-officially asked for the evidence now in possession of the Government, desiring to use it in returning indictments against men who did dynamite "jobs" within their limits. These cities are New York, Brooklyn, Hoboken, Kansas City, Detroit, Cincinnati, Buffalo, St. Louis, Omaha, Cleveland, Salt Lake City, Chicago and Peoria, Ill.

Every stenographer employed by the International Association of Bridge and Structural Iron Workers during recent years has been summoned to appear to-morrow, it is reported, to give evidence.

Another of the chief witnesses will be Frank Bokhoff, Cincinnati coppersmith, who is said to know much about the operations of the dynamiters. Ortle McNamara, too, will be brought from Indianapolis to testify.

WOMEN WILL TELL OF JOHN J.'S LIFE.

It is expected the Grand Jury will hear much indicating the dual personality of John J. McNamara. Women, some of whom have been subpoenaed, others who will be called later, will be compelled to reveal the habits of the so-called "brains" of the dynamite conspiracy in so far as they may shed light on the planning and execution of the plots. With several of his stenographers and secretaries John J. McNamara is known to have been very friendly.

One woman for whom the Burns detectives searched for weeks, was known in certain quarters as "Mrs. McNamara." Her child, whose parents are attributed to John J. McNamara, is now five or six years old. For several years, according to reports of the investigators, McNamara was devoted to this woman and she possesses much information which will be of value in determining the extent of the dynamite conspiracy. Later she and McNamara had a falling out and she charged that she was trying to blackmail him, in his efforts to checkmate her by taking into his confidence one of his dynamiting comrades.

TWO SHOTS BY STOKES DURING FLAT BATTLE, SAYS MISS CONRAD

Second Girl Defendant Baffles Prosecutor to Smash Story of Firing at Millionaire in Self Defense.

WIFE OF STOKES ON STAND AS CASE NEARS ITS END.

Butler at Lexington Contradicts Lillian Graham's Testimony of Her Visit to the Farm.

The trial of Lillian Graham and Ethel Conrad for the shooting of W. E. D. Stokes drew within sight of its long deferred close to-day when Miss Conrad was excused from the witness stand at the end of Assistant District Attorney Buckner's re-cross examination. The girl went through the ordeal in spirited fashion and left the stand practically unscathed by the prosecutor's cross fire.

At the close of Miss Conrad's testimony, Attorney Moore announced that Mrs. Stella Singleton, his remaining important witness, was ill, but would be able to appear to-morrow. The prosecution offered no objection to going ahead with the rebuttal and produced two new witnesses.

LADY FOLJAMBE NOW WEDS MAN SHE JILTED AT ALTAR

London Woman of Sensations Creates a New Stir After Her Vanishing Act.

LONDON, Dec. 13.—Lady Constance Foljambe, a half-sister of the Earl of Liverpool, Comptroller of the King's Household, who created a sensation in London on July 3 by failing to appear at church at the time appointed for her marriage to Rev. A. H. K. Hawkins, has again astonished society and her friends by quietly marrying Mr. Hawkins this afternoon.

On July 3, when the fashionable church in the West End of London where the ceremony was to take place was filled with society people, surrounding the bridegroom, surprise was caused that the bride did not appear. A messenger was sent in haste to the Earl of Liverpool's residence to make inquiry, and came back with the reply that Lady Constance "went out shopping this morning and had not yet returned."

Lady Constance disappeared from London, and it was later announced that she had simply changed her mind and decided that she did not wish to be married.

Albany, N.Y., Dec. 13.—The sentence to death for the murder of Ruth Wheeler was confirmed yesterday by the Court of Appeals, will die in the electric chair in Sing Sing prison some day of the week beginning Jan. 29, 1912.

The time was set to-day by the Court of Appeals, and the exact date and hour will be determined by the warden of the prison.

New Yorker Dead From Auto Accident.

ATLANTIC CITY, Dec. 13.—Emil Johnson of New York, injured on Sunday afternoon two miles from May's Landing when he was hurled from an automobile into a telegraph pole, died to-day. Splintered bone was removed from his brain and the delicate operation was thought to be successful until he suddenly became unconscious at daylight.
